## WOULDN'T IT BE AMAZING TO BE ABLE TO BRING PROFESSIONAL CLINICAL TREATMENTS INTO THE COMFORT OF YOUR OWN HOME?

Now you can, with the groundbreaking **NEW** range of innovative home care treatments developed by the skincare experts and scientists at MD Skin Solutions who are on a mission to redefine aesthetic standards since 1999.

With unparalleled expertise in medical aesthetics and proven a track record for delivering outstanding results to leading practitioners, Pluryal's best-in-class range of aesthetic treatments can be found in over **70 countries** across all 5 continents.

The Pluryal range of aesthetic treatments is a trusted brand representing a global aesthetic medical approach focused on providing physicians with comprehensive solutions that help their patients to achieve healthy, radiant skin without the need for aggressive interventions.

# After years of development, Pluryal unveiled their newest innovation in 2024:

With over 15 years of expertise in the aesthetics industry and a remarkable track record of delivering outstanding results, Pluryal by MD Skin Solutions' wide range of aesthetic treatments is trusted internationally by physicians.

As a leading global brand with our Pluryal Mesoline range, we are praised for our innovative medical approach, which focuses on providing medical practitioners with comprehensive solutions to help their patients achieve healthy and radiant skin without the need for more intensive clinical interventions.

Today, we offer our expertise right to the homes of all beauty lovers.

Welcome to our newest innovation:

**meso'me by Pluryal**  
a range of at-home cosmeceutical therapies,  
inspired by professional mesotherapy  
based on microneedling.

What sets meso'me apart is the unique integration of a roller with 120 micro-needles and innovative serums in a single product. This cutting-edge design enhances the effectiveness of skin care while simplifying the application process.

Microneedling facilitates the assimilation of active ingredients by creating micro-channels in the skin. Through these channels, the active ingredients can penetrate deeply into the epidermis, promoting collagen and elastin production, all in a completely painless way.

At meso'me, quality is our priority. As a renowned, ISO-certified manufacturer based in Europe, we are committed to delivering exceptional standards in skincare innovation.

First of its kind  
home care  
mesotherapy  
range.

---

This innovative range of 5 efficacious cosmeceutical products is inspired by professional mesotherapy and designed exclusively for home use.

You can use the system as an alternative to clinical treatments, for when you can't make it to your aesthetic provider or medspa, or for a follow-up home treatment.

Learn more about the full meso'me collection of 5 unique products designed to address specific indications to be used with our signature meso'me roller.

The roller is designed to facilitate better absorption of active ingredients by creating micro punctures to help stimulate fibroblasts.

**95%** softer skin  
**90%** brighter skin

\*Satisfaction test on 20 volunteers 30 minutes after microneedling. Study conducted by an independent French laboratory.

# Optimizer

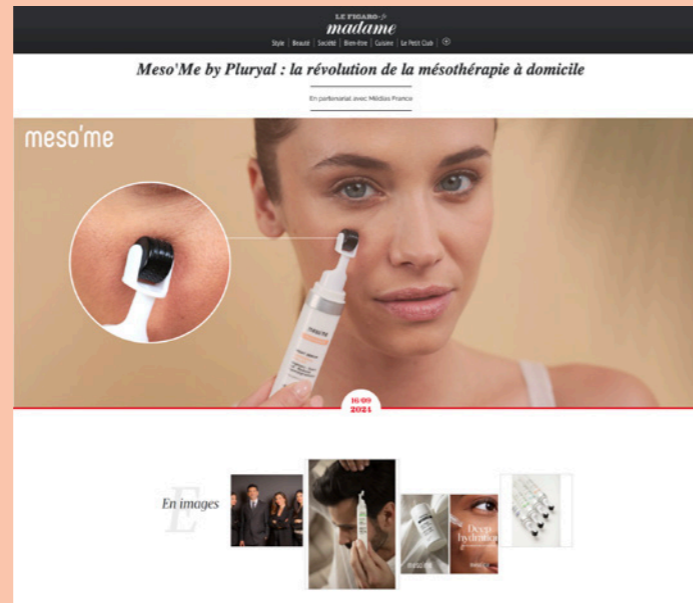

## How to use meso'me in 8 simple steps

1. First, clean and dry the area you will be treating.
2. Next, clean your roller using warm water and soap, then rinse it thoroughly.
3. Use the roller on the treatment area by applying pressure to the base of the tip until the serum is released.
4. Roll horizontally, vertically and diagonally, moving back and forth, 2 to 4 times in each direction to ensure the area is evenly covered.
5. Finally, gently massage the area in a circular motion to ensure that the serum is fully absorbed.
6. If you are using meso'me Tight, Clear or Radiance, complete the treatment by applying the Optimizer meso'me serum.
7. After completing the treatment, clean the roller again.
8. Dry the roller thoroughly and close the cap before storing it for your next treatment.  
For best results, use the roller 2-3 times a week, ensuring a gap of 2-3 days between treatments.
